

Dr. David Lillicrap: Queen's University, Kingston, Canada

Dr. Lillicrap is a Professor in the Department of Pathology and Molecular Medicine at Queen's University. His medical education was completed at Imperial College Medical School in London. He has been the recipient of a Senior Canada Research Chair in Molecular Hemostasis for 21 years, and in 2013, he was elected to the Fellowship of the Royal Society of Canada. Dr. Lillicrap is a past member of the World Federation of Hemophilia's Medical Advisory Board and Chair of the WFH's Research Committee. He is a past Chairman of the International Society on Thrombosis and Haemostasis' (ISTH) Scientific and Standardization Committee and a past member of the Council of ISTH. He served a 7-year term as an Associate Editor of the journal Blood and has recently completed a 5-year term as Co-Editor-in-Chief of the Journal of Thrombosis and Haemostasis. His research program focuses on the molecular science of Factor VIII and von Willebrand factor.
